

REFERENCE LETTER

During the period from 2007 till now "Architectural atelier -Varosha" Ltd. works in cooperation with the team of engineers from "BMCC" Ltd. related with the design and built of a production and warehouse buildings from a steel skeleton. Some of the major projects are:

- Extension of the factory for production of meat semi-manufactured goods UPI VIII-627 from KV. 271, Lovech;
- Extension of drying chambers for a processing enterprise- UPI VIII-627 from KV. 271, Lovech;
- Extension of the factory for production of meat semi-manufactured goods UPI-218 from KV. 271, Lovech;
- Expansion of refrigerated warehouse for storage and trade UPI I-218 from KV. 271, Lovech;
- "Agrocenter and Agricultural Pharmacy" UPI XXXIX-649, Lovech.

Thanks to the engineers of the design company BMCC Ltd a complete project documentation was developed, fully consistent with all norms and standards. BMCC Ltd professionally fulfills its tasks, taking into account the specific conditions of the projects, operation and services of the sites. The projects were developed with good coordination with other designers.

With this reference we would like to recommend "BMCC" Ltd. as a reliable and professional partner in the field of industrial structure design and realization of large projects.
