

Steel structure

for project „ Production halls and warehouses for Kastamonu Bulgaria " v.
Gorno Sahrane, investor - "Kastamonu Bulgaria"

REFERENCE

I would highly recommend eng. Ivaylo Yotsov and his team.

BMCC's team are both easy to work with and very knowledgeable. Our firm feels very fortunate to have the services of Ivaylo Yotsov and the engineering staff of BMCC as a consultant/design team member.

Since the beginning of our cooperation, we found all members of the team to be extremely professional and highly experienced in the field of the steel constructions and most importantly - approachable. As we work more closely with BMCC and with the help of the BIM technologies we managed to improve efficiency in the development and design process leading through to easy, fast and accurate execution and installation of the steel structures.

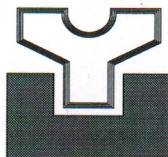

I would not hesitate to recommend their services to others!
